Profile

I am a Digital Game Developer focused on Unity and C#, with experience in web technologies such as .NET and React. I have hands-on practice in game mechanics, concept development, voxel graphics, and environment design. I am passionate about turning ideas into playable prototypes using modern software principles such as Clean Architecture. I am seeking new opportunities to create value in both game and web projects.

Education

- | | |
|-------------------------|--|
| 2019 – 2024
Istanbul | Digital Game Design - Bachelor's Degree, İstinye University <ul style="list-style-type: none">Gained both theoretical and practical knowledge in game design, level design, and AI programming. |
